Artem Golovin

Software engineer with PM certification

artem@xtc.vc
+31 64 0000 875

Summary

I create cool web applications all-inclusive for already 8 years. Prototyping, design, frontends and backends. Either on my own or coordinating a team behind it. Also familiar with embedded electronics.

I mostly write Javascript using either Nodejs on backend or Vue on frontend. My everyday instruments are Git, Docker, Webpack, eslint, a bunch of CI/CD tools. All my apps are covered with tests, mostly using Mocha or Jest.

Was certified as project manager in 2016. Have a broad mentoring experience — helped over sixty people on codementor with their projects, architecture and testing environments.

Work experience

Full-stack engineer
GoAbout | The Hague
January 2014 — Present

> Development and maintaining of pretty much every single NodeJS backend and Vue/Angular FE

Full-stack engineer
Pingdisco.com | Remote
March 2018 — Present

> UI design and development from the scratch to the very end, Vue.js & Adonis.js

Frontend Developer
LayerGloss | Amsterdam
August 2013 — December 2013

> Development of the AngularJS frontend app and eventually Sinatra-based backend

Education

Bachelor of Engineering
Metropolia | Helsinki
July 2012 — June 2016

> Specialization in web development. Thesis about personalized journey planning. Active participant of StartUp Challenge Business Courses.

Certifications

CS169 Software as a Service
BerkeleyX
November 2013

> Using agile development methods to deploy a SaaS app in the cloud. Plus a bit of Ruby On Rails

Project management and People
Art. Gorbunov School
June 2016

> Managing projects and teams in the Results-Only Work Environment. With a special attention to remote-based workflows.

*Also I'm a certified scuba diver but I guess this is not relevant unless you're aiming to build a javascript-controlled tactical submarine ;-)

Skills

NodeJS	Adonis.js, Express, Kue
Frontend JS	Vue, Nuxt, AngularJS 1.x, Leaflet, Webpack
Typescript	w/ Vue
Testing	TDD, Mocha, Karma, Jest, Supertest, Sinon
Linting	Eslint, John papa style guide
Deploy	Docker, K8S, Ansible, Nginx
CI/CD	Github, TravisCI, CircleCI
Design	Sketch, PS, InDesign
Embedded	IoT, Arduino, C Lang, MQTT
Management	Certified with ROWE, Scrum
Databases	Postgres, Postgis, MySQL, Redis
HTML&CSS	Pug, SASS, Stylus, Bulma, Bootstrap
Python	Flask
Bash	Scripting
Swift	iOS
3D Printing	Cura, Fusion 360
